■ **1Q25 results in line/slightly below.** Datalogic reported 1Q25 sales up 1.3% YoY to Eu113mn, in line with our estimate, and EBITDA of Eu6.8mn vs. Eu7.1mn expected (6.0% margin vs. 6.3% expected; The gross profit margin was strong at 43.3% in 1Q25 vs 38.4% in 1Q24, with the EBITDA margin impacted by a Eu2mn YoY increase in R&D expenses to 14.9% of sales in 1Q25 vs. 13.3% of sales in 1Q24. Below the EBITDA line, EBIT was negative by Eu6.2mn including Eu5mn of one-offs, Eu3mn of which provisions for incentivized layoffs. The bottom line was negative by Eu5.9mn, similar to EBIT, as financial charges were slightly positive (ForEx) and taxes zero (negative pretax profit).

■ **Sales seen slightly down in 2Q25 but FY outlook confirmed. Current booking is up 35% at Data Capture and 20% at Industrial Automation.** At Data Capture, sales were up 10% YoY to Eu75mn in 1Q25, confirming the recovery by the business, with sales growing double-digit in all geographies in 2H24 after -10% in 1H24. At Industrial Automation, sales were down 13% to Eu38mn in 1Q25 after -19% YoY in FY24 (down double-digit in each quarter). The key point in the call was on 2Q25 sales expected slightly below the 2Q24 figure of Eu133mn. In point of fact, although Industrial Automation orders up 8% in 1Q25 should drive sales growth in 2Q25 (with current booking up 20%), at Data Capture management guided for lower sales in 2Q25 vs. a strong 2Q24. However, during the call they explained that this reflects the timing of order conversion on fixed retail scanners, while the current booking at the Data Capture business at +30% (key contract in mobile awarded to Datalogic but not contributing to 2Q sales) supports management's guidance for FY25 sales up +3%/6%, with 1H25 sales broadly in line with 1H24 followed by sustained growth in 2H25. With sales at Eu130mn in 2Q25 (slightly lower YoY), the EBITDA margin should be close to 10% vs. the FY25 target of a double-digit margin. The guidance assumes Eur/Usd at 1.10. They expect no impact from tariffs as Datalogic has very modest imports from China, which are not significant on numbers.

■ **Estimates unchanged.** Our estimates, unchanged, point to sales up 6% in FY25 to Eu524mn and EBITDA at Eu55mn (10.6% margin), both in line with management guidance. The company has a solid balance sheet with the net financial position estimated at approx. breakeven in the current year.

■ **OUTPERFORM; target Eu8.0.** Our target price of Eu8.0 per share implies a target FY2025/2026E EV/EBITDA of 8.0x. On our estimates, at the current share price of Eu4.7 per share, the stock trades at ca. 5x EV/EBITDA 2025, which, in our view, does not reflect the fundamental value of the company, which has modest debt and a solid technological positioning for the foreseeable future. Low market share in mobile data capture, where Datalogic is a new entrant in a market dominated by Zebra and Honeywell, provides potential upside on the valuation.

The reproduction of the information, recommendations and research produced by Intermonte SIM contained herein and of any its parts is strictly prohibited. None of the contents of this document may be shared with third parties without authorisation from Intermonte.

This report is directed exclusively at market professional and other institutional investors (Institutions) and is not for distribution to person other than "Institution" ("Non-Institution"), who should not rely on this material. Moreover, any investment or service to which this report may relate will not be made available to Non-Institution.

The information and data in this report have been obtained from sources which we believe to be reliable, although the accuracy of these cannot be guaranteed by Intermonte. In the event that there be any doubt as to their reliability, this will be clearly indicated. The main purpose of the report is to offer up-to-date and accurate information in accordance with regulations in force covering "recommendations" and is not intended nor should it be construed as a solicitation to buy or sell securities.

This disclaimer is constantly updated on Intermonte's website www.intermonte.it under LEGAL NOTICES. Valuations and recommendations can be found in the text of the most recent research and/or reports on the companies in question. For a list of all recommendations made by Intermonte on any financial instrument or issuer in the last twelve months consult the web page CUSTOMER AREA.

Intermonte distributes research and engages in other approved activities with respect to Major U.S. Institutional Investors ("Majors") and other Qualified Institutional Buyers ("QIBs"), in the United States, via Plural Securities LLC under SEC 15a-6 guidelines. Intermonte is not registered as a broker dealer in the United States under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and is not a member of the Securities Investor Protection Corporation ("SIPC"). Plural Securities LLC is registered as a broker-dealer under the Exchange Act and is a member of SIPC.

ANALYST CERTIFICATION

For each company mentioned in this report the respective research analyst hereby certifies that all of the views expressed in this research report accurately reflect the analyst's personal views about any or all of the subject issuer (s) or securities. The analyst (s) also certifies that no part of their compensation was, is or will be directly or indirectly related to the specific recommendation or view in this report.

The analyst (s) responsible for preparing this research report receive(s) compensation that is based upon various factors, including Intermonte's total profits, a portion of which is generated by Intermonte's corporate finance activities, although this is minimal in comparison to that generated by brokerage activities.

Intermonte's internal procedures and codes of conduct are aimed to ensure the impartiality of its financial analysts. The exchange of information between the Corporate Finance sector and the Research Department is prohibited, as is the exchange of information between the latter and the proprietary equity desk in order to prevent conflicts of interest when recommendations are made.

The analyst responsible for the report is not a) a resident of US; b) an associated person of a U.S. broker-dealer; c) supervised by a supervisory principal of a U.S. broker-dealer. This Research Report is distributed in the U.S. through Plural Securities LLC, 950 3rd Ave, Suite 1702, NY 10022, USA.

GUIDE TO FUNDAMENTAL RESEARCH

The main methods used to evaluate financial instruments and set a target price for 12 months after the investment recommendation are as follows:

- Discounted cash flow (DCF) model or similar methods such as a dividend discount model (DDM)
- Comparison with market peers, using the most appropriate methods for the individual company analysed: among the main ratios used for industrial sectors are price/ earnings (P/E), EV/EBITDA, EV/EBIT, price /sales.
- Return on capital and multiples of adjusted net book value are the main methods used for banking sector stocks, while for insurance sector stocks return on allocated capital and multiples on net book value and embedded portfolio value are used
- For the utilities sector comparisons are made between expected returns and the return on the regulatory asset base (RAB)

Some of the parameters used in evaluations, such as the risk-free rate and risk premium, are the same for all companies covered, and are updated to reflect market conditions. Currently a risk-free rate of 4.0% and a risk premium between 5.5%-6.0% are being used.

Frequency of research: quarterly.

Reports on all companies listed on the S&P/IB40 Index, most of those on the MIBEX Index and the main small caps (regular coverage) are published at least once per quarter to comment on results and important newsflow.

A draft copy of each report may be sent to the subject company for its information (without target price and/or recommendations), but unless expressly stated in the text of the report, no changes are made before it is published.

Explanation of our ratings system:

BUY: stock expected to outperform the market by over 25% over a 12 month period;
OUTPERFORM: stock expected to outperform the market by between 10% and 25% over a 12 month period;
NEUTRAL: stock performance expected at between +10% and -10% compared to the market over a 12 month period;
UNDERPERFORM: stock expected to underperform the market by between -10% and -25% over a 12 month period;
SELL: stock expected to underperform the market by over 25% over a 12 month period.

Prices: The prices reported in the research refer to the price at the close of the previous day of trading

CURRENT INVESTMENT RESEARCH RATING DISTRIBUTIONS
